Art Unit: 2811

1. Claims 25, 26 and 28 are objected to because of the following informalities:

Claim 25, line 8, the phrase "the first layer" has no antecedent basis. Appropriate correction is required.

2. Claims 33-36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification never discloses the opening having a first dimension along the first side approximately equal to the trench opening dimension as claimed in claim 33.

3. Claims 42-44 are allowed.

4. Applicant's arguments filed 3/3/06 have been fully considered but they are not persuasive.

It is urged, in pages 5 and 6 of the remarks, that with the trench 330 formed by applying an anisotropic etch to the substrate 302 through the faceted opening, the resulting in the trench 330 having an upper dimension that generally corresponds to the dimension of the faceted opening along the lower surface of the silicon nitride layer 306. However, fig. 3E discloses the pad oxide [304] having a sloped side surface formed between the silicon nitride layer [306] and the semiconductor substrate [302].

Therefore, the opening at a bottom surface of the silicon nitride layer [306] would be larger than that of the trench opening at a top surface of the substrate [302]. Claim 33

is not supported by the original specification and it is still rejected under 35 USC 112, first paragraph.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
